Grant Activity

Grant Activity - 2021 Watonwan 1W1P Administration

Description

The Greater Blue Earth River Basin Alliance (GBERBA) was appointed fiscal agent for the Watonwan River Watershed Implementation Grant and will track grant expenditures, process payments, and complete all grant reporting (including State of the Watershed Report) and other financial responsibilities.

The Watonwan implementation process will flow through the GBERBA structure with monthly Technical Committee Meetings and Monthly Policy Board/Executive Board meetings. These meetings will be structured to incorporate Watonwan Steering Team and Policy Committee sessions for discussion on grant implementation activities. GBERBA contracted staff will be billing by calculated hourly rates throughout the grant process and complete all necessary reporting as requested. Staff include the GBERBA Administrative, Technical and Financial Coordinators.

Grant policies will be created for each project category and reviewed by Technical Committee and approved by the Policy/Executive Board.

Description

Targeted agricultural practices will be determined by the project scoring/ranking worksheet with emphasis on planning region priority. Common practices include grass waterways, terraces, grade stabilization structures, water and sediment control basins and side inlets consistent with the USDA NRCS FOTG or be a professionally accepted engineered practice. Staff with the required JAA will have signing authority for the conservation plans and contracts. Producers will enter into contracts for structural agricultural practices that meet NRCS practice standards or professional accepted engineering standards, and GBERBA approved policy. Practices implemented through Federal programs including the Environmental Quality Incentives Program (EQIP) will be used to match State Funding. Match sources may also include the Ditch Authority, Counties or SWCDs (if non state funds).

Cost-Share: Non-State Funded Partnership Projects - 95% State Funding (Alone) - 85% - Maximum \$50,000/project.

Projected Match:

Federal (EQIP) - \$30,960.00

Landowner - \$13,158.00 - Required 5%.
